

BuzVault Quick Start

Everything you need in your first five minutes.

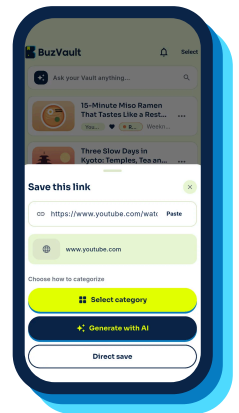

1. Install and open

- Search “BuzVault” on Google Play and tap Install.
- Open the app — you can start right away, no account needed.

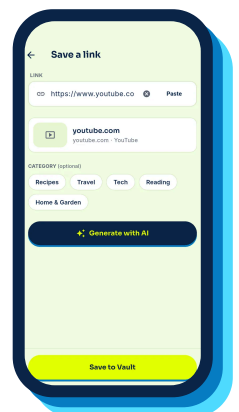

2. Save from any app

- In Instagram, YouTube, Chrome or any app, tap Share.
- Choose BuzVault. Pick a category, let AI suggest one, or save directly.
- Tip: pin BuzVault to the top of your share list.

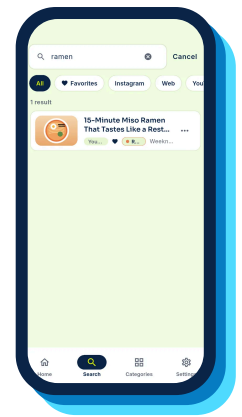

3. Or paste a link

- Copy a link, open BuzVault and tap +.
- Paste and tap Save to Vault.

4. Find anything

- Tap Search and type any word you remember — title, tag, summary or your note.
- Search works even without internet.

5. Back up your vault

- Settings → sign in with Google or email.
- Your saves are backed up automatically. Settings → Backup & restore shows the last backup.
